PROFESSIONAL SUMMARY

Proactive and detail focused Postgraduate in Computer Applications (MCA) with project based experience in building responsive, user friendly web applications. Skilled in JavaScript, Node.js, Express, React, and modern UI frameworks like Tailwind CSS and Bootstrap. Familiar with REST APIs and basic backend functionality, with a focus on clean code and responsive design.

TECHNICAL SKILLS

Languages: JavaScript , Java, SQL

Frontend: HTML, CSS, React.js, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, Spring Boot, REST API Development

Database: MongoDB, MySQL

Tools & Platforms: GitHub, VS Code, Chrome DevTools

Web Development: Responsive Design, Cross Browser Compatibility, Debugging

Soft Skills: Communication, Teamwork, Time Management, Problem Solving

PROJECTS

1. Asset Management System-

(React.js, Node.js, Express.js, MongoDB)

- Developed a full stack Asset Management System to add, update, assign, and track organizational assets, improving asset visibility and reducing manual tracking through MERN stack architecture.
- Implemented real time asset status updates (Available, Assigned, Unavailable) and a dynamic dashboard with asset counts and assignment overview, enhancing decision making and reducing asset mismanagement.

2. Rapid Maintenance Response System (RMRS)-

(Java, Spring Boot, MySQL)

- Built a system to log, assign, and track maintenance issues efficiently. Improved response time and issue resolution using Java backend and MySQL database. Added real time status updates to streamline issue assignment and improve resolution efficiency.

EDUCATION

MCA

Babu Banarasi Das University (BBDU), Lucknow

2023-2025

B.sc

Allahabad State University, Prayagraj

2020-2023

CERTIFICATION

Front End Development: HTML and CSS

Issued by Great Learning Academy

Industrial Training: Java with Spring Boot Framework

Issued by Softpro India
